

«PeakTech® P 5220» Coating and Material Thickness Meter

€169.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 5220

GTIN/EAN: 4250569403576

Description

Coating thickness gauges are used for the non-destructive measurement of coatings such as paint or plastic on metallic surfaces. The PeakTech 5220 works according to the eddy current principle and is suitable for ferrous metals (Fe) such as sheet steel and non-ferrous metals (Non-Fe) such as aluminum or copper. This measuring device works with high precision and has a German and English user interface with menu control on the easy-to-read LCD display with backlight. In addition to the many measurement functions, such as minimum and maximum value, mean, high and low alarm and much more, this model also offers an internal data memory in which four measurement groups can be recorded. The saved measured values can be transferred via USB cable to a Computer and with the enclosed software it is possible to save the data as a text file or Excel table. For increased measuring accuracy, the PeakTech 5220 offers an easy-to-use calibration and zeroing function. As a result, this measuring device is particularly suitable for testing paint thicknesses in the automotive sector, for painting companies, galvanizing, anodizing or other industrial metal coating processes.

Technical features

- Matrix LCD display with graphical menu navigation
- Automatic Screen rotation
- Suitable for Fe and non-Fe metals
- Min, Max, Mean Funktion

PeakTech Prüf- und Messtechnik GmbH
Gerstenstieg 4
DE-22926 Ahrensburg
www.peaktech.de

- Low- / High alarm (with red Backlight)
- Zeroing and calibration function
- Internal Memory for 80 readings per meas-group
- Auto Power Off
- Accessories: Batteries, Carrying Case, User manual, Calibration set, USB cable and PC software for Windows XP to 10

Specifications

USB:

Backlight:

Display Type: Dot Matrix LCD

Meas. method: Wirbelstrom

Meas. range: 0 ... 1300µm

Meas. type: Fe, Non-Fe

Memory (internal):

Software:
