

«PeakTech® P 1070» 300V AC / DC digital multimeter ~ 2000 digit LCD

€17.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 1070

GTIN/EAN: 4250569400100

## Description

---

The PeakTech 1070 impresses with its excellent price / performance ratio as a TÜV / GS-approved multimeter for the hobby electronics engineer or training area. In addition to the extensive measurement functions for direct / alternating voltage, direct current and resistance, this model has a fast-responding continuity test with an acoustic signal and a diode test. In addition, this model has a temperature measurement function with the enclosed wire sensor, which offers a useful addition to the measurement functions, especially for the hobby area. The measuring range is selected manually, which means that this multimeter displays a measured value particularly quickly.

## Technical features

---

- Inexpensive digital multimeter for hobby and training
- 2000 digit LCD display
- DC and AC voltage measurements up to 300V
- $\mu$ A, mA and A direct current measurements
- Fast continuity test with acoustic signal
- Resistance measurement function and diode test
- Temperature measuring function with enclosed wire sensor
- Safety: TÜV / GS; EN-61010-1; CAT III 300 V
- Accessories: test leads, type K thermal wire sensor, battery and manual

## Specifications

---

**Basic Accuracy DC:** +/- 0,5%

**Digital counts:** 2.000

**Display Type:** LCD

**Over voltage category:** CAT III 300 V

**Range selection:** Manual

**TÜV/GS:**

**V DC max.:** 300V

**OHM max.:** 2000 kΩ

**Temp. max.:** 1000 °C

**Temp. min.:** 0 °C

**mA DC max.:** 200mA

**µA DC max.:** 2000 µA

**V AC max.:** 300 V

**A DC max.:** 10A
