

«PeakTech® P 205-08» Analog galvanometer +/- 35µA DC

€32.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 205-08

GTIN/EAN: 4250569401855

## Description

---

The PeakTech 205-08 is an analog galvanometer, which is able to display currents in the range from -35 to +35 µA DC with high precision due to its scale measuring range. This inexpensive device is designed for use as a desk device / bench device, furthermore this analog device does not require a power supply, which means that it can be used permanently and economically. The respective measured values can easily be read by the student on the large analog mirror scale.

## Technical features

---

- High quality device for use in schools and teaching materials
- Stable ABS plastic housing
- No power supply needed for operation
- With mirror scale and 4 mm safety sockets.

## Specifications

---

**Display Type:** Analog (Center)

**µA DC max.:** +/- 35µA
